Enthusiastic and self-motivated frontend developer with 1.5+ years of experience. I have developed strong expertise in HTML, CSS, JavaScript, alongside a solid understanding of UI design principles.

I take pride in my ability to create intuitive and visually appealing user interfaces, ensuring an excellent user experience. My diligence and passion for delivering high-quality work have consistently driven me to excel in every project I undertake.

Experience

Freelance Frontend Developer

2024

- **Website for Nuevotek solutions**
 - Built a professional website for a network infrastructure company using Nextjs
 - Conducted thorough tests to ensure smooth user experience
- **Portfolio website for Graphic Chef**
 - Created a dynamic portfolio website using Nextjs
 - Integrated Animations and interactive elements to showcase the designer's work using Framer motion and swiper js
 - Ensured cross-browser compatibility and optimized the website for performance

Applift - Frontend Developer

2024 - present

- Worked together with the development team to create 5+ web based sales solutions for local and global clients
- Transformed the user experience of the front-end of the company's main website, resulting in enhanced performance, responsiveness, and user experience.
- Successfully led the front-end development of a major e-commerce project, which was highly praised for its clean UI, functionality, and seamless user journey using Nextjs, React, Axios, Framer Motion, shaden UI
- Collaborated closely with backend engineers to deliver a real-time SaaS business management platform, enabling users to create accounts, set up stores, manage products, track sales, and oversee their overall e-commerce operations.

Projects

Restaurant App - [Live Project](#)

- Developed a sleek and responsive restaurant web application using Angular and Tailwind CSS, focusing on clean UI design and intuitive user experience.
- Utilized Angular services to manage application state, handle cart logic, and track user activities seamlessly across the app.
- Integrated a test Paystack payment gateway to simulate secure checkout and transaction processes.
- Prioritized performance, scalability, and responsiveness to ensure smooth interaction across devices.

Education

High School - King's Word College

2015

University of Uyo

2021-2026

- Bachelor of Engineering (Mechanical)
